

For the upcoming discussion task, please take the role of **Finance Coordinator**.

Your goal is to represent financial sustainability, attendance, and commercial success.

You **strongly prefer** these planning steps:

- Promote the festival and sell tickets
 - *Example reasoning:* A festival only succeeds if people attend. Early promotion is necessary to generate demand and secure financial viability.

You **strongly prefer NOT to** start with:

- Secure the festival venue and stage setup
 - *Example reasoning:* Committing to a venue too early without confirmed interest increases financial risk and reduces flexibility.

During the discussion, advocate for the planning step that best supports this perspective.

Available Planning Steps

1. **Book headline and supporting acts** – secure performers who will attract an audience
2. **Secure the festival venue and stage setup** – arrange a location and basic infrastructure
3. **Promote the festival and sell tickets** – ensure awareness and generate attendance
